

In reference to NAB's petition 04-160, as a subscriber to XM Radio, it is my RIGHT and PRIVLEDGE to receive content that I PAY FOR. This is not content that is available to the general, non-paying public. I have asked for this content and I pay for said content. The NAB has no position in determining whether this content should not be available. I have chosen XM radio because I want the quality, selection and convenience of the service that XM provided and I pay for the privledge of receiving it and will continue to do so.
